Report

On

2 samples of Permanent Record Film

Submitted by

CIA Records Officer
Central Intelligence Agency
Washington 25, D. C.

Reference: Your letter dated November 17, 1954

For permanent records it is recommended that the hypo content of permanent record film not exceed 0.005 mg per square inch.

The 2 samples of 16 mm permanent record film (#310 and #394) tested less than 0.005 mg of hypo per square inch.

For the Director,

Raymond Davis
